# Survey123

### Landing Page

- Each of our surveys are hosted on Survey123
- The surveys can be accessed either through
  - your internet browser or via the Survey123 App
    The Survey123 app is the only option to use in the field if you don't have internet
    - connectivity
       If your survey site is in a low connectivity area you can send your survey through once you get back into range
    - If you intend on conducting multiple surveys, the Survey123 app is the more efficient way to do so

### Troubleshooting

#### If you're unable to download the Survey123 app:

- Ensure the operating system is up to date
  - iOS 11 or later
  - Android 4.4 KitKat or later, 6.0 Marshmallow or later

# If you're unable to scan the QR Code to access your chosen survey:

- Make sure your camera settings allow you to scan QR Codes
  - Apple
    - Settings > Camera > Scan QR Codes on
    - 2. Download a QR Code reader app this may not prompt you to open

the link in your browser, you may be required to copy the URL provided into your internet browser

- May be able to use another app you already have on your phone – Snapchat, Shazam, Pinterest
- Android
  - 1. Settings > Enable QR Code scanning
  - Download a QR Code reader app this may not prompt you to open the link in your browser, you may be required to copy the URL provided into your internet browser
  - May be able to use another app you already have on your phone – Snapchat, Shazam, Pinterest

### Survey123 app is requesting you sign in:

- When opening the Survey123 app it requests users to sign in
- To avoid this, instead of opening the app to access our survey, follow these instructions:
  - Scan the QR Code as directed below
  - Choose to open the survey in the Survey123 app
  - A pop up will prompt you to leave the browser and open the Survey123
  - Survey123 app will open and you will be able to complete the survey and submit

If you're having issues that these steps don't solve, please contact us at <u>info@wheatbeltnrm.org.au</u>

### To complete the survey using the survey123 app:

1. Download the Survey123 app through the App Store (iOS/Apple) or Google Play (Android) by searching Survey123

- You don't need to sign up or create an account to be able to complete our surveys through the Survey123 app
- 2. If you have this page open on your phone, click on the link below for the survey you wish to complete.

If you have this open on your computer you can scan the relevant QR code using the camera or QR scanner on your phone or tablet and click on the website link that comes up

Matchstick banksia Recorder: https://arcg.is/iWvn8

Malleefowl Recorder: https://arcg.is/1DeW85

Wheatbelt Woodlands TEC: https://arcg.is/D9GC9 3. The link will take you to the website below:

**4.** If you click on "Open in the Survey123 field app" it will open up in the app you have downloaded and you can complete the survey from there.

To complete the survey using your internet browser:

- If you would prefer not to download the app you may click on the relevant link below: Matchstick banksia Recorder: <u>https://arcg.is/19u0ra0</u> Malleefowl Recorder: <u>https://arcg.is/yuazT</u> Wheatbelt Woodlands TEC: <u>https://arcg.is/D9GC9</u>
- 2. The link will take you to the website below:

Open in browser	Open in the Survey123 field app

3. Click on "Open in browser" and complete the survey

## Tips for completing the survey:

- You must complete all the questions with an asterisk to be able to progress to the next question and be able to submit your survey
- Complete the survey and submit
  - If you are using the app, when you have completed a survey you will be asked:

- If your internet connection is intermittent or low it will be better to select "Send Later"
- If you do select "Send Later", **don't forget** to send the survey through once you have a good internet connection. To do this select "Outbox" at the bottom of the screen:

• Then select the "Send" button at the bottom of the screen

- Inputting coordinates:
  - The easiest way to submit the survey location information is to select "From device" see below

Input Coordinates * <ul> <li>From device</li> </ul>	Manual			
$\bigtriangledown$ Capture location from device				
Are you currently at th Yes	e survey location? * No			
Please click the crosshairs button in the map window below to capture/update your current location prior to survey submission.				
Point Location *				
( )1°39'S 116°40'E ±	5.4 m 🙁			
Perth	0			

- If you are at the survey site click on the small crosshairs button in the top left corner circled in red above
  - If you accidentally click on the map and move the pin location you can close the map and re-click the crosshairs button
  - Close the map by clicking the back button circled below:
